

# Custom Styles

Registering frequently used paragraph and run styles as custom styles allows you faster and more convenient editing.

## Custom Paragraph Styles

To use custom paragraph styles, you need to set the following preferences.

**synapeditor.config.js**

```
{
  'editor.customStyle.paragraph': [
    {
      'name': 'Gray',
      'style': {
        'color': {
          'r': 170,
          'g': 170,
          'b': 170
        }
      }
    }
  ]
}
```

- If the parameters above are applied, the Editor will look like this:

## Custom Run Styles

To use custom run styles, you need to set the following preferences.

## synapeditor.config.js

```
{
  'editor.customStyle.textRun': [
    {
      'name': 'BigRed',
      'style': {
        'fontSize': 32,
        'color': {
          'r': 255,
          'g': 0,
          'b': 0
        }
      }
    },
    {
      'name': 'SmallBlue',
      'style': {
        'fontSize': 16,
        'color': {
          'r': 0,
          'g': 0,
          'b': 255
        }
      }
    }
  ]
}
```

- If the parameters above are applied, the Editor will look like this:
