

Setting Import API and Upload API

Use "editor.import.api", "editor.upload.image.api", "editor.upload.video.api", "editor.upload.file.api" keys to configure upload / import APIs. Server API addresses (URL) should correspond to those of back-end implementation details. Please refer to [Integration](#) page for further information.

Configuration Method

Key	Descriptions
editor.import.maxSize	Set the maximum importable file size. (unit - byte, default - 10MB) This value is set by the browser (client) and the maximum importable file size may vary depending on the server configuration.
editor.import.api	Set import API (URL). Document files will be sent to the designated API (URL).
editor.import.param	Set the parameter to be sent with the import request.
editor.import.headers	RELEASE 2.7.0 OR ABOVE Set the header to be sent with the import request.
editor.upload.maxSize	Set the maximum uploadable file size. (unit - byte, default - 3MB) This value is set by the browser (client) and the maximum uploadable file size may vary depending on the server configuration.
editor.upload.image.api	Set image upload API (URL). Images will be sent to the designated API (URL).
editor.upload.image.param	Set the parameter to be sent with the image upload request.
editor.upload.image.headers	RELEASE 2.7.0 OR ABOVE Set the header to be sent with the image upload request.
editor.upload.video.api	Set video upload API (URL). Videos will be sent to the designated API (URL).
editor.upload.video.param	Set the parameter to be sent with the video upload request.
editor.upload.video.headers	RELEASE 2.7.0 OR ABOVE Set the header to be sent with the video upload request.
editor.upload.file.api	Set file upload API (URL). Files will be sent to the designated API (URL).
editor.upload.file.param	Set the parameter to be sent with the file upload request.
editor.upload.file.headers	RELEASE 2.7.0 OR ABOVE Set the header to be sent with the file upload request.

Configuration Example

synapeditor.config.js
<pre>{ 'editor.import.maxSize': 10485760, 'editor.import.api': '/importDoc', 'editor.import.param': {}, 'editor.upload.maxSize': 3145728, 'editor.upload.image.api': '/uploadImage', 'editor.upload.image.param': {}, 'editor.upload.video.api': '/uploadVideo', 'editor.upload.video.param': {}, 'editor.upload.file.api': '/uploadFile', 'editor.upload.file.param': {} }</pre>
