Autosaving

Autosaving refers to the feature that automatically saves the currently editing contents into Web Storage of the browser..

To use autosaving feature, you need to set the following preferences.

Unit: ms (default = 60000)

synapeditor.config.js

```
{
        'editor.autoSave': true,
        'editor.autoSave.period': 60000,
}
```

Saved contents can be loaded to the editing window through " Open Autosave".
