

Toolbar Configuration

You can freely arrange and use various features provided by SynapEditor.

Configuration Method

Use "editor.toolbar" key on initialization to configure the toolbar features.

synapeditor.config.js

```
{
  'editor.toolbar': [
    'new', 'open', '|',
    'paragraphStyleWithText', '|',
    'fontFamilyWithText', '|',
    'fontSizeWithText', '|',
    'bold', 'italic', 'underline', 'strike', '|',
    'fontColor', 'fontBackgroundColor'
  ]
}
```

[Application result]
