Special Character/Emoji

RELEASE 2.4.0 OR ABOVE

It is the plugin that allows the user to use special characters/emojis in SynapEditor.

Using this plugin, you may use more kinds of bullets through '**more**' while applying '**bulleted list'**.

How to Use

Loading Plugin File

```
<link rel="stylesheet" href="URL of characterPicker.min.css">
<script src="URL of characterPicker.min.js"></script>
```

UI

You may add the buttons to toolbar and menu with **'specialCharacter'** and **'emoji'**.

Adding to Toolbar

Editor Configuration

```
//...
'editor.toolbar': [
        //...,
        'specialCharacter', 'emoji'
        //...
],
// ...
```

Adding to Menu

Editor Configuration

```
//...
'editor.menu.definition': {
        //...,
        'insert': [
                //...,
                'specialCharacter', 'emoji',
                //...
        ],
        //...
},
//...
```

Shortcut

windows	mac
Ctrl+F10	Cmd+F10
