

# Photo Editor

RELEASE 2.4.0 OR ABOVE

It is the plugin that allows the user to edit image in SynapEditor with image editor provided by TOAST UI.

## How to Use

## Loading Plugin File

```
<link rel="stylesheet" href="URL of tuiImageEditor.min.css">
<script src="URL of tuiImageEditor.min.js"></script>
```

## UI

You may add the button to toolbar and menu with '**tuiImageEditor**', the name of the plugin.

### Adding to Toolbar

#### Editor Configuration

```
//...
'editor.toolbar': [
    //...,
    'tuiImageEditor',
    //...
],
// ...
```

### Adding to Image Balloon Popup

#### Editor Configuration

```
//...
'editor.balloon': {
    //...
    'image': [
        //...
        'tuiImageEditor',
        //...
    ],
    //...
}
//...
```

### Adding to Menu

#### Editor Configuration

```
//...
'editor.menu.definition': {
    //...,
    'tools': [
        //...,
        'tuiImageEditor',
        //...
    ],
    //...
},
//...
```
