

Editor Initialization

HTML

```
<div style="background-color: #ffffff; width:100%; height:300px;">
  <div id="synapEditor"></div>
</div>
```

When SynapEditor object is generated, synapEditorConfig object (defined in synapeditor.config.js file) shall be transferred.

Javascript (v2.2.0 or above)

```
<script src='https://www.synapeditor.com/resource/synapeditor/synapeditor.config.js'></script>
<script src='https://www.synapeditor.com/resource/synapeditor/synapeditor.min.js'></script>
<script>
    window.editor = new SynapEditor('synapEditor', synapEditorConfig);
</script>
```

In version 2.1.0 or below, the path of configuration file (config.json) shall be designated.

Javascript (v2.1.0 or below)

```
<script src='https://www.synapeditor.com/resource/synapeditor/synapeditor.min.js'></script>
<script>
    window.editor = new SynapEditor('synapEditor', 'config.json');
</script>
```
