

Template

Users may faster and more easily create documents with Template feature provided by SynapEditor.

synapeditor.config.js

```
{
  'editor.template': [
    {
      'category': 'template_category1',
      'label': 'Report',
      'items': [
        {
          'name': 'Research Report',
          'path': '/resource/template/template1.html'
        },
        {
          'name': 'Sales Report',
          'path': '/resource/template/template2.html'
        }
      ]
    }
  ]
}
```
