

Balloon Popup Configuration

You may freely arrange the buttons to be displayed on the balloon popup.

Use 'editor.balloon' to configure the buttons required to edit texts, images, videos, layers, hyperlinks and tables.

Configuration Method

```
synapeditor.config.js (default)

{
  'editor.balloon': {
    'Name of balloon popup1': ['button1', 'button2', '-', 'button3', 'button4'],
    'Name of balloon popup2': ['button5', 'button6', '-', 'button7', 'button8']
  }
}
```

Available Balloon Popup Names

Name	text	image	video	div	hyperlink	tableCell
Description	text	image	video	layer	hyperlink	table

Please refer to [Toolbar Configuration](#) for more available balloon popup names.
