

# command - textFill

Designate the text color for the selected text.

In caret status, the text color for the text to be entered is designated.

## Parameters:

Name	Type	Description
actionName	String	'textFill' text color changing API
colorCode	String	hex color (ex; '#000000')

## Example:

```
editor.execCommand('textFill', '#000000');
```
