command - insertTable

Insert table at the caret position.

When the caret is positioned within a paragraph, the paragraph is divided and the table is inserted.

When there is a selection, the selected block is deleted and the table is inserted.

Parameters:

Name	Type	Description
actionName	String	'insertTable' table inserting API
rowcol	Object	{ row: {Number} col: {Number} } row/column of table

Example:

```
editor.execCommand('insertTable', { row: 2, col: 2 }); // insert 2x2 table
```
