

command - insertLink

Insert hyperlink to the selected text.

In caret status, the hyperlink is connected to the entered text or URL.

Parameters:

Name	Type	Description
actionName	String	URL of the hyperlinkerlink inserting API
url	String	URL of the hyperlink
text	String	Text to be entered
title	String	Tooltip of the hyperlink
target	String	Target setting (_blank, _top, _parent, _self)

Example:

```
editor.execCommand('insertLink', 'http://www.synapeditor.com', 'Go to the Synap Editor homepage', 'Synap Editor', '_blank');
```
