

command - addParagraphProperties

Sets paragraph properties of the paragraph in which the caret is positioned.

When there is a selection, paragraph properties of the selected paragraphs are set.

Parameters:

Name	Type	Description
actionName	String	'addParagraphProperties' paragraph properties setting API
properties	Object	{ id: {String}, className: {String}, style: {Object} }

Example:

```
editor.execCommand('addParagraphProperties', { id: 'paragraph-id' }); // id
editor.execCommand('addParagraphProperties', { className: 'custom-class-name' }); // class
editor.execCommand('addParagraphProperties', { style: { margin: { top: 20, left: 20 } } }); // margin
editor.execCommand('addParagraphProperties', { style: { padding: { bottom: 30, right: 30 } } }); // padding
```
