

# command - align

Set alignment of the paragraph in which the caret is positioned.

When there is a selection, alignment of the selected paragraphs is set.

## Parameters:

Name	Type	Description
actionName	String	'align' paragraph alignment API
vlaue	String	'left', 'center', 'right', 'justify'

## Example:

```
editor.execCommand('align', 'left'); // Left align
editor.execCommand('align', 'center'); // Center align
editor.execCommand('align', 'right'); // Right align
editor.execCommand('align', 'justify'); // Justify align
```
