

# command - setLineHeight

Set line spacing of the paragraph in which the caret is positioned.

When there is a selection, line spacing of the selected paragraphs is set.

## Parameters:

| Name       | Type   | Description                         |
|------------|--------|-------------------------------------|
| actionName | String | 'setLineHeight' line spacing API    |
| lineHeight | Object | { value: {Number}, unit: {String} } |

## Example:

```
editor.execCommand('setLineHeight', { value: 1.6, unit: '' }); // line height 1.6
editor.execCommand('setLineHeight', { value: 150, unit: '%' }); // line height 150%
editor.execCommand('setLineHeight', { value: 20, unit: 'px' }); // line height 20px
```
