

command - insertDrawingObjectByURL

Insert image or video at the caret position.

When there is a selection, the selected block is deleted and image or video is inserted.

Parameters:

Name	Type	Description
actionName	String	'insertDrawingObjectURL' image and video URL inserting API
url	String	URL of the image or video to insert
type	String	Defining type of inserting image or video: 'Image', 'Video'

Example:

```
editor.execCommand('insertDrawingObjectByURL', 'https://image.url/image', 'Image');
```
