 Iframe --> Iframe2[Synap EditorHolistic Rich Text Editor]
 Document --> Document1[Synap EditorHolistic Rich Text Editor]
 Document --> Document2[Synap EditorHolistic Rich Text Editor]
```

The diagram illustrates the structure of a Synap Editor project. It is organized into a hierarchical tree structure. The root node is 'UI'. From 'UI', there are four main branches: 'config file', 'Textarea', 'Iframe mode', and 'Document mode'. The 'Iframe mode' and 'Document mode' branches each further divide into two sub-branches, all labeled 'Synap EditorHolistic Rich Text Editor'. The diagram uses blue text for labels and black dots for nodes and connections.
